SALSA& METRO STYLE

Tiles inspired by small sizes to epitomise chic and timeless class.

The variety of patterns, structures and colours available means great design opportunities: black combined with white for modern interiors, classic elegance straight from an old townhouse, or cream tiles accentuated by the colour of the furniture and perhaps a trendy wallpaper – these are just some of the possibilities.

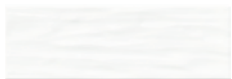

Regardless of the choice, you are certain to achieve an outstanding visual effect in your interior.

Bachata is a three-dimensional collection consisting of delicate, patterned tiles in universal colours: white, cream, black and grey. The addition of appropriate lighting brings out and emphasize visual effects of these tiles, giving a great decorative result.
